

ALLOWING ABUNDANCE ATTUNEMENT

“Prosperity is a way of living and thinking, and not just money or things. Poverty is a way of living and thinking, and not just a lack of money or things.”

~Eric Butterworth

This attunement is a simple energetic healing procedure, meant to open the seeker to the harmonic flow of abundance and prosperity of the Universe.

It works gently but effectively, as it is designed to remove dissonant frequencies, blocks and even “walls” of resistance that a person might have built unconsciously to prevent goodness and abundance to get into their lives.

When a person is having financial issues, sometimes the problem is not that they aren't talented, or capable, or trying hard enough. They may even be trying to think positively or affirm their wealth with gratitude practice, but something simply keeps standing in their way.

No amount of positive thinking, however, will work for a person who believes that they should not be happy, or worse, that they do not deserve the blessings of good things deep down inside of themselves. We often get these feelings of unworthiness from growing up in dysfunctional family environments, as well as accessing some triggers of past lives experienced in our present daily lives.

This attunement will require some work from the seeker: the practice of exercises we call Intunements. Also, it will not instantly solve financial problems, but will empower the recipient to make better choices and move forward in their lives for increased abundance down the line.

The more blocks you remove, the more you will feel the effect of the natural flow of goodness and blessings.

The more blocks you have, the longer it may take to get into a point of balance and plenitude; but this is not a reason to give up.

This will make huge difference in your general energy system, because it will open your power centers to the natural flow of plenty of this universe. It will attune you with the magnetized field of energy that will help you attract good things.

The Abundance Symbol

The energy of goodness and eternal abundance is the one that permeates the entire universe; its symbol is the symbol of the infinite, or the one we all know as the number eight laid on its side.

Intunement Exercise

Dedicate a time where you will be calm and able to do this exercise for at least 15 minutes, prior to the receiving of this energy.

Breath deep at least six times, with your eyes closed. Imagine the symbol above showing itself in front of your eyes, more or less close to your third eye. Imagine it pulsating and made with pure gold.

With this symbol in your mind's eye, intone inside of yourself, 12 times:

***Kadoish Kadoish Kadoish, Adonai
Tsabayoth***

If you prefer, you can also say it this way, also repeating it 12 times:

***Sanctus Sanctus Sanctus, Dominus Dei,
Tsabayoth***

Breathe again deeply and say out loud:

***I am prepared and I accept the attunement
of allowing prosperity into my life for my
greater good. May this be done, according
to Divine Will, according to Divine Light,
and in alignment with Christ-
consciousness. And So It Is.***

Stay in meditative state for as long as you feel
you should.

The transmission can vary from half an hour
to one entire hour. Be aware that you may
feel sleepy or the opposite, full of energy.

The fully integration of this attunement can
take from seven to twenty one days.

Using the Abundance Attunement

Once attuned, there is a simple process that
can be used to access the energy:

Sit or lie comfortably.

Breathe in and out deeply, with the intention
of breathing in and allowing abundance
inside of your life.

On the in breath, affirm to yourself silently:

***I am worthy of love and abundance in my
life.***

On the out-breath, affirm silently:

***I am letting go of any feelings of
unworthiness and unforgiveness.***

Do this for as long as you like, as often as you
wish.

After being attuned once you can attune
and re-attune yourself at any time by
invoking Archangel Michael.

*Lord Michael, please attune me, (state your
name) to the eternal and immortal energy of
abundance. I humbly ask that my energies to
be aligned with the higher vibrations of love,
harmony and goodness that permeated and
sustain all. May this be done, according to
Divine Will, according to Divine Light, for the
greatest good of all and always aligned with all
the frequencies of Christ-consciousness.*

There is no time limit to re-attune yourself.

This energy can and should be shared with
everyone, and it is ok to charge to provide
personalized attunements, if you offer
attunements as part of a Reiki or other
energetic healing practice.

Supportive Abundance Affirmations

I live my life in perfect trust with the Light of
the omnipresent goodness; that brings me
everything I need in the right time. I am on
earth to manifest my Divine and sacred part
of the plane of the Divine in all its perfection.

*

I am an idea that was manifested from the
Divine mind. Like me, all that exists in the
Universe and that surrounds me were created
by Its Divine, powerful and Infinite Mind. All
the material resources, such as money,
abundance and wealth were also manifested
by the Divine mind with a purpose to
manifest peace, harmony and plenty to all.

*

I consciously accept all the resources created
by the Mind of God to assist me in the
fulfilling of my personal, collective and global
contracts and responsibilities.

*

I am opening myself to receive prosperity, plenitude, abundance and wealth in many shapes and frequencies: such as in relationships, in love, in material resources and in health.

*

I consciously declare that everything that may be lacking in my life be immediately filled by Divine decree of the eternal law of grace with love, goodness, plenitude, peace of mind, heart and spirit. In accordance with all the harmonics of All That Is, I so declare, decree and dream awake. And So It Is.

*

I am open to receive all the goodness and abundance of the Universe.

I know that prosperity is part of my human nature and it is present in every circumstance of my life, even when it is not clear to me.

The prosperity energy that I attract to me now is translated into what I need more in my life, be it money, health, harmony, love or resources to materialize my rightful dreams aligned with my higher purpose.

I know that everything I need to reach my highest purpose and fulfillment is coming to me effortlessly, always in the exact moment I need. I allow the Goodness of the Universe, translated by Love and Light of Christ-consciousness, to realign my meridians and chakras to receive it all perfectly and harmonically.

I reach prosperity in every action and I know I prosper because I am authorized to receive the blessings and the assistance of the Divine providence through my Divine nature.

I declare, decree and dream awake that this is now done. And So It Is.

It is sealed in truth, in honor and pure love with the divinity of my being.

Affirmation for Transmutation and Forgiveness

(To be made in front of a mirror)

I am an expression of the beauty of God. Through the beauty and intelligence of who I AM, I declare and decree that the same Divine beauty be restored and perfected in every single cell in my body, in all my organs, in every breath and all my extra-physical bodies.

All my energy system obeys my conscious command of loving harmony with the Universe, and my heart pulsates beauty and pure thoughts. My eyes are expressions of compassion to others and my soul agrees with the fulfilling of all my earthly needs. I so declare. And So It Is.

About Attunements

To receive the Attunements at an agreed upon time just go into a quiet or meditative state and ask /intend to receive them. You may do a room clearing or preparation of your preference before the attunement, if you wish to, but it is not necessary to do so.

To get attunement that is set in a time window, relax or meditate or enter a relaxed and receptive mental, emotional state and then ask, intend, request, that if it is in accord with their highest good, you receive whatever is being made available.

Many people first call on their higher self, spiritual source or guide or angel etc. if they work with one of these to mediate the attunement and confirm that it is suitable for them to get it at the time.

Some people with very strong general shields may need to consciously lower

their shields to receive them.

This is a simple mental intention you allow the attunement or energy work to come in or happen.

Some people do feel energy and attunements as they come in but not everyone does. Many people can feel energies attunement as they occur, sensing things like heat or waves of energy flowing into their body or they may see light or even images or hear music. Many people do not have any such experience at all, other than perhaps feeling both more relaxed and energized than usual. Most people, but not all, who regularly feel subtle energies are able to feel some of the energy coming in. The key to getting the attunements is to intend to get them and allow them to come in - allow the energies to come in (usually they enter at the crown and to go throughout your body).

It is OK to fall asleep; this does not interfere with getting energies or attunements at all and may allow deeper work than when you are awake. Some attunements seem to put people to sleep frequently.

The time the attunements take to come in varies greatly depending on what is in the attunement, how the individual works with energy and other Factors. Most attunements will have some information about how long the energy may run.

You can move around and do other things during the attunement or treatment and they will still come in but it is preferable to remain in a receptive meditation during this time if possible.

When Attunements are for a system with

several different functions, you can usually choose to accept the set of attunements in one continuous flow or you can allow each section to come in one at a time.

After you have gotten an attunement, you will be able to activate the activatable functions by intention. This is a mental command or request. Using your own words is fine. That is, you simply intend to use "run" a function and allow it to run. Many of the shakti do require a slight bit of mental attention to continue running.

Some people do not feel energy so they can get an attunement and not feel it but are able to tell they got it from the results of using the functions.

Remember that running energy is not something you have to really work at or struggle with. Allow the energy to run rather than forcing or pushing it.

Shakti is often used as a term for any spiritual energy frequency that can be called in and "run" or used /received for some spiritual purpose. They are found in spiritual traditions worldwide and functions usually presented in other forms can also be transmitted as shakti. There is an almost infinite variety of shakti.

The term is often used only for healing /spiritual energies with "intelligence" rather than for any general vibration frequency. In other words, it's not just an ambient vibration and does not apply to all sensed energy but only to healing or spiritually effective frequencies of energy.

The ability to work with shakti is traditionally the result of many years of study, practice and experience of spiritual

and esoteric matters. These Abilities can be received by an attunement or transmission to the aura from a person who is able to transmit / facilitate attunements for a particular energy work system. It can also be received directly from spirit or through osmosis by spending time with people or information that are well skilled in this work and some seem to be reawakening of past life skills.

You activate or run a shakti you have received an attunement for by intending to do so. Mentally ask / intend to run it and allow it to flow. Information about How specific shakti are used is normally explained in material provided in regard to specific attunements and systems.

Most attunements, treatments or energy samples are set up in a way that they can be received over a window of time, typically three to four days. Some may be done on a real time basis where the sender does the energy work and the recipient gets it at the same time but most are done using a time window for convenience. Some Attunements may be set up to be available at any time for anyone who wants to call them in.

What the person sending or grounding the attunement does usually is to connect with the energy source and connect with the recipient and serve as a channel for the treatment or attunement. In a way the window method is a bit like recording some music or a video for later viewing or listening, only in this case it is energy. Protections are built into the energies and systems and they cannot do harm. The window is set up so that the recipient connects with the source or energy stream themselves and allows the attunement to come in, if it in accord with

their highest good .

It is very helpful to have at least a little experience with meditation or conscious relaxation to facilitate getting the attunements.

These are direct intention attunements and energies. There is no formal ritual required to receive them. To receive the Attunements or energy samples when they are made available just go into a quiet or meditative state and ask /intend to receive them, If it in accord with your highest good to do so. You might say something like "I ask to receive and call in (whatever it is) if it is in accord with my highest good now." You may do a room clearing or preparation of your preference before the attunement if you wish to. It is not necessary to do so.

The section on About Attunements is from the works of Peggy Jentoft.
